

Tom has been a REALTOR® at Stephens since 2000. Early on he attended a CRS class where the instructor encouraged attendees to create a niche in the market. A light went off for Tom: “old houses”. He has written two successful nominations for properties to be on the National, State & Local Historic Registers. He founded Lawrence Modern, (see Lawrencemodern.com) its mission is to raise awareness of midcentury and modern architecture so future generations of Lawrencians have examples to appreciate and or live in. He is a member of Depot Redux, a group that has advocated for the preservation & now successful renovation of the Santa Fe / Amtrak depot in East Lawrence. He currently serves on the Board of Watkins Museum.
